

Lithium Battery Boxes

Designed for superior safety and performance, our lithium battery boxes provide secure housing for energy storage systems. Ideal for solar, UPS, inverter, and backup power applications.

Voltage: 72V - 30AH / 35AH / 40AH

Enclosure Type: Powder-Coated MS Battery Box

Designed for heavy-duty lithium battery systems, these enclosures offer superior protection, durability, and efficient cable management for demanding energy storage applications.

Voltage: 51V - 105AH / 200AH

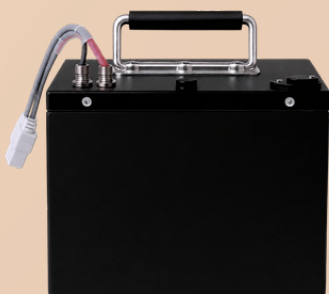

Enclosure Type: Powder-Coated MS Battery Box

Designed for compact energy storage solutions, these battery boxes provide reliable protection, efficient heat dissipation, and long-lasting performance for residential and commercial applications.

Voltage: 60V - 25AH / 30AH / 35AH / 40AH

Enclosure Type: Powder-Coated MS Battery Box

Compact and durable battery enclosure designed for safe energy storage, offering reliable performance for portable power, solar, UPS, and backup applications.

Voltage: 48V - 25AH / 30AH

Enclosure Type: Powder-Coated MS Battery Box
